## TVA FIELD STUDY WATTS BAR LOCK TENNESSEE RIVER MILE 529.3

TVA is planning on performing a field study starting **2 September 2020** at **1500** and ending **3 September 2020** at **1000** and will have tire floats (with flashing lights) deployed across the entire river at the old Watts Bar Fossil mooring cells just downstream of Watts Bar Hydro (TRM 529.3). This will include tires deployed in the navigation channel. Members of the TVA team will be out with them all night and will remove the tires if a tow comes through. The team will be monitoring marine radio channels 13 and 16 but request that contact is made through Daniel Saint at 865-632-6965.
